

SOME CAMERA GEAR TO CONSIDER

NO SPECIFIC GEAR IS REQUIRED. THIS LIST IS JUST A GUIDE TO HELP YOU MAXIMIZE YOUR EXPERIENCE.

Equipment Recommendations:

At a minimum you will need to bring a camera and lenses capable of close-up photography. At least one off-camera flash will allow flexibility and creativity with your photography. We recommend an SLR or mirrorless camera with interchangeable lenses and a 1:1 or greater macro lens. Additionally, a set of extension tubes, bellows, or a reverse-mounted lens kit can provide suitable or greater magnification.
